## Academic Symbolism

### The University Mace

The Academic Ceremonial Mace represents the authority of the Chief Executive Officer of the University. The Mace of University of The Bahamas measures three feet in length and is made from native mahogany for its strength and beauty. It is topped by the University crest flanked by two flamingoes, a symbol of our heritage and brilliance and the national bird of the Commonwealth of The Bahamas. The Mace was designed and carved by Andret John, a noted Bahamian artist who is famous for his sculptures.

### The Presidential Chain and Medallion

The Presidential Chain and Medallion are symbols of the rank of President and the authority of the Office of President. The bronze medallion is antique silver-plated and depicts the University's crest. The chain, plain and unadorned, is joined to the medallion by the President's banner, engraved with the name of the University's President. Together with the Mace, the chain and medallion symbolize the continuing authority of the President of University of The Bahamas.

### Academic Dress

The wearing of caps, gowns and hoods at college and university functions dates back to the earliest days of the oldest universities. Modern academic regalia evolved from the kinds of apparel worn by monks and students in the eleventh and twelfth centuries to keep warm in the medieval castles and halls in which they studied.

### The Gown

The gown has become symbolic of the democracy of scholarship, for it completely covers any dress or rank or social standing. The sleeves of the gown indicate the level of the degree held by the wearer. A long pointed sleeve indicates the bachelor degree. The master's degree gown has an oblong sleeve cut in an arc with a slit at either the upper arm or wrist. The doctoral gown has bell shaped sleeves and may also have velvet facing and three sleeve bars or chevrons. The sleeves of a university president's gown bear four chevrons. The trimming may be black or it may match the degree colour on the gown's edging.

## The Cap

The academic cap is a sign of the freedom of scholarship and responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as square, symbolizing the book, although other authorities claim that it is a mortarboard, the symbol of the mason, a privileged guild. Trustees wear a six-sided cap, while the President's is eight-sided. The colour of the tassels on the cap denotes the discipline. The tassels on the mortarboards worn by faculty may be black or a colour indicating the degree. Those who hold a doctoral degree may wear a gold tassel.

Tassel colours worn by graduates can include:

Accounting – Drab	Law/Criminal Justice – Purple
Agriculture – Maize	Library Science – Lemon
Architecture – Blue Violet	Marketing – Drab
Arts – White	Mathematics – Gold
Business Studies – Drab	Nursing – Apricot
Economics – Copper	Psychology – Gold
Education – Light Blue	Public Administration – Peacock
Engineering – Orange	Sciences – Gold
Finance – Drab	Social Studies – Citron
General Studies – White	Sociology – Citron
Geography – White	Technology – Gold
History – White	
Journalism – Crimson	
Language and Literature – White	

## The Hood

The hood is the most prominent feature of the academic costume and is lined with the official colours of the institution conferring the degree. It is edged and bound with velvet or the colour appropriate to the degree. At University of The Bahamas, the lining of the hood is royal blue and white representing the University's colours.

## The Cord

The gold cord is worn by candidates graduating with distinction. The cumulative grade point average required for the award of distinction is 3.51 – 4.00, effective Fall 1998.

# Commencement Speaker New Providence Ceremony

## Ms. Aisha Bowe

### *Founder and CEO, STEMBoard*

You belong in any room you choose to enter.” This foundational advice that Aisha Bowe now offers others was forged from her academic and professional experiences along with the realization that belief and persistence are integral ingredients for achieving one’s goals.

Driven by a desire to achieve her dreams in spite of other people’s doubts and the challenges of navigating environments where few looked like her, Ms. Bowe earned a B.S.E in Aerospace Engineering and an M. Eng. in Space Systems Engineering, from the University of Michigan. She then began what would become a high profile and prestigious career at NASA.

Ms. Bowe joined NASA’s Ames Research Center where she worked as a Mission Engineer on Nanosatellite programs before serving as a published researcher in the Flight Trajectory Dynamics & Controls Branch of the Aviation Systems Division. Ames is well known for its world-class research in air traffic management, conducted in collaboration with the Federal Aviation Administration to make air travel safer, less expensive and more efficient for the flying public. Ms. Bowe’s work focused on developing methods to maintain safe separation of air traffic and optimize fuel consumption within automated systems.

Knowing first-hand the importance of mentorship in the spaces that you wish to enter, Ms. Bowe founded the Hack-IT-STEM camp in Nassau with a focus on exposing hundreds of Bahamian youth to career options in the Science, Technology, Engineering and Mathematics (STEM) fields. As a person whose lineage hails from Exuma, Ms. Bowe deeply cares about life in The Bahamas. Since inception of the camp, she was responsible for providing the event to hundreds of Bahamian students at no cost.

Determined to help inspire and make space for other minorities in technology, Ms. Bowe transitioned after six years of service at NASA to found STEMBoard an engineering solutions company, where she currently serves as CEO. In 2020, STEMBoard ranked in the top half of the Inc. 5000 fastest growing companies in America list. A primary mandate of her organization is to ‘democratize technology’ by inspiring those from under-represented communities to pursue STEM careers.

In response to the pandemic, STEMBoard launched LINGO, a self-paced, at-home coding kit, to help support educators and students in the new remote and hybrid educational structures imposed by distance learning. Today, LINGO is used by students worldwide

and is the chosen academic support tool of various private and public schools across the United States, non-profit institutions as well as programs sponsored by tech giants including Microsoft and General Electric.

Ms. Bowe regularly shares her story and message of self-empowerment in interviews and presentations worldwide. Her accomplishments as a speaker include the US State Department’s speakers’ program and she has been the subject of many articles in publications such as: Entrepreneur Magazine, Inc.com, Fast Company, Wired and Shondaland. She was a featured guest on NBC LX as well as The Kelly Clarkson Show and The Tamron Hall Show, two of

the most highly rated daytime talk shows in the United States. In addition, Ms. Bowe was the subject of an Olay/BET public service announcement promoting women in technology.

Ms. Bowe is a member of the National Society of Black Engineers (NSBE) and the American Institute of Aeronautics and Astronautics (AIAA). She has received numerous awards for her dedication to technical excellence and the principles of diversity and opportunity, including: The 2020 Outstanding Alumna Award - University of Michigan Engineering, The 40 Under 40: Tech Diversity in Silicon Valley, U.S. Women's Chamber of Commerce Emerging Star Award and NASA's Engineering Honor Award.

Her father, Glenroy Bowe was born and raised in Nassau and graduated from St. Anne's before moving to the U.S. to finish his studies abroad. She is also the granddaughter of Forrester Bowe of Exuma.

## Commencement Speaker (University of The Bahamas-North)

Glennett Fowler  
*President and CEO, FOWLCO Limited*

Glennett R. Fowler serves as president and CEO of FOWLCO Limited and values innovation and entrepreneurial excellence.

As a catalyst for change, Mrs. Fowler is passionate about the national development of The Bahamas. Her contributions to economic sustainability are reflected in her visionary leadership. She continues to position FOWLCO as one of the leading marine and logistics management companies in the country. Her involvement with The Hardware Center aims to transform the shopping and customer service experience for contractors and individuals with a passion for do-it-yourself projects.

Mrs. Fowler's contributions to the movement of goods and services throughout The Bahamas and around the world, have earned her national recognition. She credits her professional accomplishments and expertise to her time spent at the University of Arkansas. There, she earned a Master's Degree in Human Resources and Training & Development and certification in Supply Chain Management and Logistics.

Being an exceptional thinker and doer, her quest for learning is ongoing and motivated her to complete a Diploma in Port Agency, Logistics & Dry Dock Logistics from Lloyds Maritime Academy in London, England. Through her learning and leadership, she designed and developed SailMate, a proprietary software to modernize and enhance the customer's import export experience.

Mrs. Fowler leads a dynamic team of driven, motivated and dedicated individuals who make meaningful contributions to the organization's success. Through leading by example, she strives to create a culture of service excellence and lifelong learning. She encourages her team to set and reach their goals, build meaningful relationships and grow within the company and contribute to an environment of limitless possibilities.

This culture is evident at all FOWLCO locations in Abaco, Grand Bahama and New Providence. Mrs. Fowler remains attentive to FOWLCO's vision that affirms the "Enrichment of our customers and clients, employees and community members' lives through consistent exceptional service, excellent business results and charity."

In 2019, The Bahamas Professional Business Services lauded her as one of 40 Bahamians under 40 for making significant contributions towards a better Bahamas.

She serves as the founding president of the National Import Export Association of The Bahamas and the membership director for the Grand Bahama Chamber of Commerce.

Additionally, Mrs. Fowler sits on the board of directors of Innovative Green Systems, a US-based organization with a commitment to develop and manufacture products for a Cleaner, carbon neutral world.

As a proud Grand Bahamian, she is an accomplished professional who recognizes that her achievements are because of faithful stewardship to God. Her love for family is evidenced by an unwavering bond shared with her husband Curtis and two daughters, Summer and Savannah.

## University of The Bahamas Alma Mater

We've come to build together a dream for this great land, Like palm trees tall upon this landfall called Bahamaland. The future is before us like endless sea and sand. We'll chart a course with alma mater proudly we will stand. A beacon for these islands embraced in shallow seas, UB will lift our spirits high for all the world to see. With hands and hearts together we'll be a guiding light, We'll live to praise our alma mater 'neath the clear blue skies. We'll live to raise our alma mater's banner waving high!
